LETTER OF INTENT

AIRCRAFT OWNERSHIP PROGRAM

Effective Date: _____, 20_____

Manager: BOP AERO SERVICES LLC, a Kentucky limited liability company, or its designated aircraft ownership affiliate ("Manager").

Prospective Owner: _____ ("Prospective Owner").

1. Purpose & Core Intent

The purpose of this Letter of Intent ("LOI") is to formally confirm Prospective Owner's serious interest in participating in an aircraft ownership program managed by Manager and to establish the baseline operational and financial terms currently under consideration. The parties acknowledge and agree that this document serves as a preliminary expression of interest to guide the drafting of final transaction documentation and does not create a definitive binding obligation to purchase, sell, or manage an aircraft interest, except as explicitly set forth in Section 7 herein.

2. Program Selection & Target Ownership Shares

Prospective Owner expresses a good-faith intent to acquire one or more ownership shares in the program selected below, in accordance with the following initial parameters:

	Aircraft Ownership Program	Shares available	Ownership per share	Scheduling per share
☐	**Cirrus SR22T G7+** New Cirrus SR22T GTS G7+	14 of 15	1 of 16 units (6.25%)	Up to 96 flight hours per year (Hobbs)
☐	**Cirrus SF50 G3** New Cirrus SF50 G3 Vision Jet	8 of 8	2 of 17 units (11.76%)	Up to 175 flight hours or 35 days
☐	**Cirrus SF50 G2+** Pre-owned Cirrus SF50 G2+ (2021–2023 model years)	4 of 4	4 of 17 units (23.53%)	Up to 350 flight hours or 70 days
☐	**Cirrus SF50 G2** Pre-owned Cirrus SF50 G2 (2019–2021 model years)	4 of 4	4 of 17 units (23.53%)	Up to 350 flight hours or 70 days
☐	**Cirrus SF50 G1** Pre-owned Cirrus SF50 G1 (2016–2018 model years)	2 of 2	7 of 15 units (46.67%)	Up to 700 flight hours or 140 days

Each program aircraft is divided into ownership units. Each share holds the units shown, and Manager retains one (1) unit in each program aircraft. Unit counts are distinct from the number of legal owners and remain subject to final legal review.

Ownership Shares Selected: _____ ownership share(s)

Cirrus SR22T payment option (Cirrus SR22T only):

- ☐ **Option 1 — New aircraft, program pre-pay.** Full Owner Investment for the new Cirrus SR22T G7+ at closing; the share may be flown on the 2022 Cirrus SR22T G6 GTS bridge aircraft until the new aircraft is delivered.
- ☐ **Option 2 — Bridge aircraft, program post-pay.** A smaller initial Owner Investment in the 2022 Cirrus SR22T G6 GTS bridge aircraft, with the remaining capital requirement due when the new aircraft is purchased.
- ☐ **Founder's Circle (optional add-on).** Prospective Owner wishes to be considered for a Founder's Circle position, offered on three (3) shares of each Cirrus SR22T G7+ and two (2) shares of each Cirrus SF50 G3 and allocated in reserved owner position order (Section 2A) while positions remain.

2A. Reserved Owner Position & Scheduling Priority

Upon Prospective Owner's execution of this LOI and Manager's acceptance, Prospective Owner shall be assigned a reserved owner position based on the date and time of Prospective Owner's execution, as evidenced by the applicable electronic-signature timestamp or, if unavailable, Manager's documented time of receipt. Earlier qualifying timestamps shall receive priority. This position shall determine relative scheduling priority upon execution of definitive program agreements, subject to the Scheduling and Use Policy, but does not guarantee aircraft availability for any particular reservation. If Prospective Owner withdraws, or this LOI expires or is terminated without execution of definitive agreements, the reserved position shall terminate and may be reassigned by Manager.

3. Anticipated Financial Structure

Based upon the program figures published by Manager as of the date of this LOI, the financial terms under consideration are structured as follows, per ownership share; the anticipated amounts for Prospective Owner are these figures multiplied by the number of ownership shares selected in Section 2. Final pricing, operating budgets, and insurance underwriting premiums will be definitively established in the final program documents.

Program (per share)	Owner Investment (one-time)	Annual Program Fee (annual)
Cirrus SR22T G7+	$106,538	~$33,976
Cirrus SF50 G3	$570,431	~$136,279
Cirrus SF50 G2+	~$947,350	~$194,802
Cirrus SF50 G2	~$859,350	~$194,802
Cirrus SF50 G1	~$1,216,700	~$362,104

Cirrus SR22T Option 2 — bridge post-pay (per share)	Amount
Initial Owner Investment (2022 Cirrus SR22T G6 GTS bridge aircraft)	$71,009
Projected capital requirement due at the new aircraft purchase	~$35,529
Bridge aircraft Annual Program Fee, until the new aircraft is acquired	~$22,153

Founder's Circle add-on (per share, if elected)	Cirrus SR22T G7+	Cirrus SF50 G3
Founder Activation Fee (one-time, 5% of Owner Investment)	$5,327	$28,522
Annual Founder Premium (25% of Annual Program Fee)	$8,494	$34,070

Owner Investment is the one-time acquisition cost per share: the aircraft purchase price, estimated taxes (calculated where the aircraft is based), and Manager's program acquisition costs; for the Cirrus SF50 it also includes the Cirrus JetStream program.

Annual Program Fee covers the program's fixed costs per share: insurance, storage, maintenance, cleaning and detailing, internet and flight data subscriptions, the management fee, and the Future Value Reserve. It is subject to change annually; Founder's Circle fees are fixed for the program duration, which is tied to the aircraft serial number. Fuel, oil, pilot services, and training are not included.

Figures marked "~" are projections. Pre-owned figures are illustrative planning values, finalized from the selected aircraft, tax jurisdiction, JetStream status, connectivity configuration, and transaction-specific costs.

4. Financial Qualification & Enhanced Data Protection

Prospective Owner acknowledges that participation in the aircraft ownership program requires verification of financial suitability for underwriting, lending, and aircraft acquisition planning. To satisfy this requirement, Prospective Owner agrees to provide financial qualification information under the following protections:

Prospective Owner represents that he or she possesses the financial capacity to satisfy the anticipated capital contribution and annual ownership obligations described herein.

- **Flexible Submission:** Prospective Owner may satisfy this requirement by attaching a standard Personal Financial Statement ("PFS") to this LOI (as outlined in Attachment A), OR by providing a formal Letter of Verification from an accredited Certified Public Accountant (CPA) or recognized financial institution confirming sufficient liquidity and net worth to execute the transaction.
- **Strict Confidentiality:** Manager shall maintain all financial data as strictly confidential and use it solely to evaluate program eligibility, secure financing support indicators, and obtain preliminary aircraft insurance hull and liability quotations.
- **Data Return/Destruction Policy:** In the event this LOI expires, or either party terminates negotiations without executing definitive program agreements, Manager shall use commercially reasonable efforts to destroy or return all copies of the PFS or validation documents upon written request.

5. Manager Reliance & Operational Planning

Prospective Owner acknowledges that while this document is largely non-binding, Manager will utilize this expression of serious intent to perform essential transactional groundwork, including:

- Identifying, vetting, and negotiating specific aircraft acquisition opportunities or hull positions;
- Seeking and structuring preliminary financing or fleet leasing arrangements;
- Securing formal insurance underwriting quotations tailored to the prospective owner pool;
- Demonstrating aggregate, actionable consumer interest to lenders, brokers, aircraft OEMs, and institutional investors.

Prospective Owner understands that Manager may rely upon this Letter of Intent when evaluating aircraft acquisition opportunities and arranging financing related to the contemplated ownership program.

Manager is permitted to disclose the existence of this LOI and aggregate program statistics for these business purposes, provided that individual personal financial data is never disclosed to any third party who is not bound by standard professional confidentiality obligations.

6. Specification of Definitive Documentation

Participation remains subject to review and execution of definitive legal agreements, including ownership-share purchase, management, operating, Scheduling and Use Policy, and related program documents. Aircraft acquisition and program commencement remain subject to sufficient owner commitments, suitable aircraft availability, financing, insurance, and operational requirements; nothing in this LOI guarantees acquisition, delivery, or entry into service by any particular date.

7. Definitive Binding Nature & Survival

The parties acknowledge that Section 2A is binding during the term of this LOI with respect to the reserved owner position. Sections 4, 8, 9, and 10 are intended to survive the expiration or termination of this LOI to the extent necessary to govern financial data protection, confidentiality, and related legal protections.

All other sections, including descriptions of financial parameters, target asset classes, program structures, and anticipated ownership terms, are non-binding expressions of intent. Neither party shall be obligated to proceed with the transaction unless and until definitive agreements have been executed. Except for breaches of the binding or surviving sections identified above, neither party shall bear liability to the other for discontinuing discussions at any time.

8. Confidentiality

The parties agree to hold in strict confidence all non-public, proprietary information, financial parameters, structural mechanisms, and client data exchanged in connection with this LOI. No party shall issue public press releases or disclose transaction terms to third parties without prior written consent, except as required by law or as reasonably necessary to professional advisors, insurers, or financing entities participating in the transaction evaluation.

9. Governing Law

This Letter of Intent, and all claims or disputes arising out of or relating to its execution or interpretation (whether contractual or tortious), shall be governed by, and construed in accordance with, the internal laws of the Commonwealth of Kentucky, without regard to conflict of laws principles.

10. Expiration

Unless mutually extended or renewed in writing by both parties, this Letter of Intent shall automatically expire and become null and void at 5:00 PM Eastern Time on _____, 20 _____, after which neither party shall have any ongoing obligation to the other except under the surviving provisions identified in Section 7. Unless definitive agreements have been executed, any reserved owner position under Section 2A shall terminate upon expiration.

IN WITNESS WHEREOF, the parties hereto have executed this Letter of Intent as of the date written below.

ATTACHMENT A
FINANCIAL QUALIFICATION REQUIREMENT

In lieu of completing a Personal Financial Statement (PFS), Prospective Owner may substitute a formal Verification Letter signed by an authorized Officer of a Financial Institution or a Certified Public Accountant (CPA) verifying transaction suitability.

Please securely attach your preferred financial validation documentation or standard Personal Financial Statement here.

All data attached remains strictly subject to the binding Data Protection, Strict Confidentiality, and Mandatory Return/Destruction policies set forth in Sections 4 and 8 of this Letter of Intent.
