Founder's Circle

The Founder's Circle is an exclusive ownership tier reserved for the most committed partners in the bop Aero platform.

It's an optional add-on to a standard share, not a different class of equity. Every owner holds the same ownership interest in their aircraft.

Founder's Circle Members receive a permanent layer of contractual privileges that enhance access, protect long-term economics, expand fleet flexibility, provide a defined path to exit, and give a formal voice in shaping the future of bop Aero.

Positions are strictly limited: two (2) on each Cirrus SF50 G3 and three (3) on each Cirrus SR22T G7+. Once those positions are filled, the Founder's Circle for that aircraft is permanently closed.

Founder’s Circle Core Benefits:

- Tier-1 Scheduling Priority
- Fixed Annual Fee for Program Duration* (Fee Freeze Protection)
- Fleet Exchange Privileges

**Program duration for each aircraft is tied to the aircraft serial number*

- Structured Exit Support
- Governance Voice & Advisory Influence
- Early Access to Future Programs
- Community & Private Networking

Structured Exit Support

After a minimum ownership period of 12 months and 180 days’ written notice, bop Aero will repurchase a Founder’s ownership interest under the Founder Repurchase Program. The minimum cash payment at closing increases with tenure, and bop Aero may pay more, up to the full repurchase value, when liquidity permits.

The Founder’s Circle is designed for owners who want more than just access to a great airplane. It’s for those who want to:

- Protect long-term economics
- Create true platform insiders
- Build a loyal ownership community
- Align incentives between owners and management

Limited by design. Defined by access.

Founder’s Circle benefits and repurchase terms are governed by the executed Founder’s Circle agreement and are subject to final legal review. The repurchase value is based on then-current value and does not guarantee the original purchase price. Pricing is on the Founder’s Circle Detail Sheet.
